
FOR MANY, THE MILLENNIUM REPRESENTS THE FINALE. FOR US, IT'S JUST THE OVERTURE.

At Sapphire, we believe that the path to greatness lies in the ability to meet challenges. Where other companies see obstacles we see opportunity and offer solutions, not excuses.

Sapphire V6 is a revolutionary software solution that is not only fully 2000 compliant, it is also the only 100% Australian owned and made Financial Management System that is truly multi-platform; able to run on Windows NT, Windows 95/98, Mac OS 8 and OS X simultaneously. Version 6 not only encompasses all the normal functions required to run a business, it also offers you the tools to continually improve your business well into the future, including Euro and foreign currency, GST and e-commerce functionality.

Our pursuit for excellence has assisted us in creating a product that empowers you to take control of your business, helping you achieve and maintain a competitive edge, so that the millennium is just a stepping-stone to the future.
