SAP applications

PRODUCT PROFILE

SAP applications provide business leaders with the critical insights into business operations.

One of SAP's distinct competitive advantages is deep industry expertise. For more than 30 years, SAP is the only software vendor to develop more than 26 pre-configured industry solutions to meet the unique needs of customers, large and small.

SAP Solutions for GRC delivers the industry's first comprehensive, integrated portfolio of applications that embed and optimise all governance, risk, and compliance activities. SAP GRC Foundation address cross-industry, industry-specific and company-specific GRC requirements to protect and increase stakeholder value.

COMPANY PROFILE

With the ability to run on Windows or Apple, or both simultaneously, SapphireOne is a dynamic ERP providing a wholly integrated suite of Financials, Payroll/HR and Assets. Sold complete, not in modules to adapt and grow with any business.

The provision of powerful search and reporting tools delivering rapid access to real time information along with a dedicated team of support and implementation staff has been helping people grow and manage their businesses better since 1986.

World first features such as platform independent architecture for support of XP, Vista and Apple OSX simultaneously, sets SapphireOne apart. Direct Email capabilities for invoices, statements and remittances, coupled with Outlook and iCal integration make this a powerful application beyond a normal ERP.

SapphireOne offers many unique features including PDA integration, Strong In-Built CRM, Full Point of Sale, Automatic integration with ATO ECI Client, all with a customisable interface. Full Inventory distribution and project costing make SapphireOne a diverse product capable of servicing multiple industries.

Let SapphireOne meet and exceed your needs and expectations
