Integrated business information

Available from Harvey Norman stores June 11th

management features and perform accounting functions over a wide range of industries - agriculture, advertising, banking, construction, law, mining, manufacturing, publishing and retailing, to name just a few.

You're in control

When you use Sapphire 5.0 you're logging on to a program that has credibility - on the market since 1987, it's been polished and perfected. It's also versatility-plus. Not only is it multi-tasking with full archive back-up and retrieve, it also has dynamic Excel link, unlimited history, speedy data entry, and gives you all staff on-line.

If you're running an empire, Sapphire allows Internet and Intranet connections with full control over who has access, and what data can be read or updated. Use world wide web forms, Java, Javascript or direct TCP/IP to make the connections using Microsoft Explorer, Netscape, Office 97 or any other browser-based products.

Here's what you get!

Sapphire is not purchased by modules, so you get everything in the one hit. The package comes complete with Accounts Receivable, Accounts Payable, General Ledger, Cash General Ledger, Inventory, SOE, POE, Quotes, Requisitions, Excel Link, Apple Events, Time Sheets, Retentions, Project Budgets, Projects, Front Office, Project General Ledger, Contracts, Diary, Payroll, Fixed Assets, Resources, Remote Access and much, much more!
