Take control of your business with Sapphire accounting package

Control your business
effectively with Sapphire V6.

KEY BENEFITS

- ✓ Unlimited foreign currency
- ✓ Importer/Exporter functions
- ✓ Client/server
- ✓ Back to back ordering
- ✓ Formula pricing
- ✓ Auto serial No. creation

The first and only 100% Australian owned and made Financial Management System that is truly multi-platform, Sapphire is unlike any other accounting package available on the market. Sapphire is not only Y2K compliant, it has the solution to the new sales tax requirements including GST.

Sapphire Version 6

Sapphire V6 is a revolutionary software package that offers unlimited foreign currency resolving all Euro Dollar implementations for the 1st January 1999, back to back ordering, formula pricing and auto serial number creation to name a few. Sapphire provides a comprehensive solution for all companies of all sizes and all industry fields.

With a commitment to providing the highest quality product, Sapphire judges the excellence of our product and services by how well they meet the requirements and expectations of our users. Sapphire Version 6 expands on the rich functionality of

Version 5, by not only encompassing all the normal functions required to run a business, but it also offers you the tools to continually improve your business processes well into the future.

Sapphire offers you a product that empowers you to take control of your business, with abundant features to assist in running your company more effectively. This comprehensive accounting system also incorporates strong management capabilities helping businesses achieve and maintain a competitive advantage.

Here's what you get

Unlike many other mission critical software packages, Sapphire is not purchased in modules. The package comes complete with: Accounts Receivable, Accounts Payable, General Ledger, Inventory, Sales Order Entry, Purchase Order Entry, Quotes, Excel

Link, Apple Events, Time Sheets, Retentions, Project Budgets, Projects, Project General Ledger, Contacts, Diary, Payroll, Fixed Assets, Resources, Foreign Exchange, Multiple General Ledgers, Importer Manager, Exporter Manager, Thin Client, Back to Back Ordering, Formula Pricing, Auto Serial Creation and much, much more! ■
